

Mission

Provide U.S. forces the capability to sustain operations in a contaminated environment with the least necessary burden and minimum degradation to mission accomplishment.

The Decon Joint Project Management office provides management support for three programs: Joint Service Family of Decontamination Systems (JSFDS); Joint Service Sensitive Equipment Decontamination (JSSED); and Joint Platform Interior Decontamination

JSFDS

The Joint Service Family of Decontamination Systems (JSFDS) program incorporates a family of decontaminants and decontamination application systems under a single entity to enhance force protection.

JSSSED

The Joint Service Sensitive Equipment Decontamination (JSSSED) program will develop and field a system that will decontaminate small sensitive items and the interiors of vehicles, aircraft, and ships.

UNS

The Decon Joint Project Management office incorporates the use of Urgent Need Statements (UNS) to ensure rapid and timely fielding of systems to the warfighter.

JPID

The Joint Platform Interior Decontamination is used for thorough decontamination of vehicles, mobile facilities aircraft and shipboard interiors in all CBRN environments.
